Memo to the files

From: James C. Adams *JCA*

Subject: Thomason Lumber - Compliance Activity

OKD 007 33554

Remarks:

Tim Smith and I stopped and visited with Earl Hayes, the new owner of Thomason Lumber. We discussed the consent agreement at length and he agreed to sign it and respond in writing as to the items in the agreement. We then inspected the facility and discussed the plans to recover the lagoon.

The dike around the treating site was satisfactory. His plan to remove the lagoons, wastewater, contaminated soil, and contaminated sawdust was satisfactory.

I inspected the lagoon around the product catch basin and evaportation tanks and was concerned about the lagoon walls structural stability and permeability. I told Mr. Hayes to have his Engineer evaluate these. The lagoon showed signs of slumping and I questioned if the clay would prevent the product from escaping the lagoon walls.

Mr. Hayes said he would write Mr. Jarman, returning the signed consent agreement and discuss the issues requested in the agreement.
